OUR CARE AND VALUES

Our unwavering dedication to quality is reflected in every aspect of our operations. From sourcing only the finest ingredients to adhering to world-class standards like IFS, HACCP, ISO, HALAL, RSPO, RFA, and KOSHER, each Vincinni product is a testament to our commitment to bringing you the very best.

In 2022, we reached a significant milestone by opening an ultra-modern research and development center equipped with an in-house sensory and microbiology lab. Our professional tasting team ensures that every bite is a delight, carefully evaluating flavors, textures, and sensory experiences through meticulous tasting sessions.

At Vincinni, sustainability isn’t just a goal, it’s embedded in everything we do. We are proud to operate with 50% renewable energy and have reduced waste and water consumption throughout our production processes by 30% in the past year. Our waste is repurposed to generate energy, and we actively collaborate with partners and communities on recycling projects. But we don’t stop there, we’re committed to constantly innovating and investing in sustainable infrastructure that promotes environmental responsibility and supports sustainable cities and communities. Our newly opened, state-of-the-art facility is dedicated to developing innovative products and nurturing the skills of our esteemed employees, ensuring a brighter future for our brand, community and our planet.
